If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary	Application No. 10/762,663	Applicant(s) TADYCH, JOHN E.	
	Examiner Peter D. Mulcahy	Art Unit 1713	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1,2 and 8-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watanabe et al. US 6,929,857.

3. The rejection set forth under 35 USC 103 in the paper mailed 9/18/06 is deemed proper and is herein repeated.

4. Applicants remarks filed in response thereto on 12/18/07 have been fully considered but have been found not persuasive. Applicants argue that the rubber latex as claimed is vulcanized. It is further argued that the prior art fails to describe the rubber as vulcanized. This does not patentably distinguish the claimed invention from that of the prior art. The art discloses the incorporation of vulcanizing agents. It is reasonable to presume that incorporation of vulcanizing agents renders a vulcanized rubber latex at some point in the application of the latex. Further, there is no lower limit of vulcanized rubber in the latex. It is reasonable to presume that the rubber in combination with the vulcanizing agents would result in some of the rubber being vulcanized. Trace amounts of vulcanized rubber anticipates the claim having no lower limit of vulcanized rubber.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
